

Donations and Sponsorships Policies

The 'Instituto Superior Politécnico de Tecnologias e Ciências' - ISPTEC is committed to achieving excellence in its teaching-learning processes, Research, Development & Innovation and establishing a relationship with the real sector of the country's economy.

Attaining and maintaining excellence, one of our Institution's major challenges, requires a continued investment in Continual Professional Development Programs in order to enhance staff competencies, resorting to various equipment and technologies.

As part of our commitment to transparency and ethics in carrying out our activities, all donations and sponsorships should be directly associated with such initiatives as projects, training, as well as equipping laboratories and the library.

In the event of donations and sponsorships involving the supply of goods, equipment or services, the suppliers should be identified together with the donor and payments should be directly made to them.

We would very much welcome your support to our initiatives, be it through monetary or any other means. Thank you in advance.
